Logistics and Distribution Stimulus Program Application Evaluation Sheet

This evaluation sheet is for use by the Logistics and Distribution Stimulus Review Team, which includes representatives from the Ohio Department of Development, the Ohio Department of Transportation, and the Ohio Rail Development Commission, to evaluate each application for Logistics and Distribution Stimulus Program assistance.

A total of **100 points** is available when ranking each submitted application, allocated according to the following:

- A. Economic Impact
- B. Financial Needs and Contributions
- C. Community Impact

An additional **10 points** may be awarded to highly competitive projects.

The items listed have been weighted appropriately to gauge the completeness and quality of each applicant's responses.

Each evaluator must complete one (1) evaluation sheet for each application received. Indicate the evaluator's name and date in the spaces provided.

Next to each item is a scoring range. For each item addressed by the applicant, rank the application to the degree indicated. The total evaluation score assigned to each application is then determined by adding the values from each section.

Evaluator Name: _____

Date: _____

| Applicant Information | |
|---|--|
| Applicant Name: _____ | |
| Project Description: _____ | |
| Final Scoring | |
| Economic Impact Score | _____ Points |
| Financial Needs and Contributions Score | _____ Points |
| Community Impact Score | _____ Points |
| Total Possible Score | 100 Points + _____ Add 10 Points for highly competitive projects. |

Economic Impact

| | Minimal | Typical | Extraordinary |
|---|-----------------------------------|-----------------------|-----------------------|
| The number of jobs in the logistics industry created and/or retained as a result of the project will have a(n) _____ impact on Ohio. Only assess jobs directly associated with the operation of the new facility. Please consider the number of jobs per dollar of state funding. Projects with hourly wages above \$18 are preferred. | 0-2 _____ | 3-5 _____ | 6-10 _____ |
| The number of jobs in the logistics industry created and/or retained as a result of the project will have a(n) _____ impact on Ohio. Only assess jobs indirectly associated with the operation of the new facility. Please consider the number of jobs per dollar of state funding. | 0-2 _____ | 3-5 _____ | 6-10 _____ |
| The number of construction jobs created and/or retained as a result of the project will have a(n) _____ impact on Ohio. | 0-2 _____ | 3-5 _____ | 6-10 _____ |
| The quantification / estimation of the logistics benefits of the project to Ohio business and industry is _____.
